

FOR IMMEDIATE RELEASE

Favourable government initiatives is driving the switchgear market in India, finds Netscribes

Netscribes (India) Pvt. Ltd., launches a report on the Switchgear Market in India 2011 as a part of its Power Equipment Industry report series.

Mumbai, India – January 14, 2011 – Netscribes (India) Pvt. Ltd., a knowledge consulting solutions company, announces the launch of its report *Switchgear Market in India 2011*. The initiatives undertaken by the government along with the growth in infrastructure projects is fueling demand for switchgears in India.

The report provides a brief overview of the switchgear market in India, the market size and forecasted growth as well as product segmentation. It then elaborates on the switchgear market segments namely low tension (LT) and high tension (HT) with their respective market size and growth figures including market segmentation by product. It also provides data on the exports and imports of switchgear.

An analysis of drivers reveals that government initiatives, increasing housing projects, technological advancements and rising demand for gas insulated switchgear are creating demand for switchgear. The key challenges identified are the presence of unorganized sector, lack of skilled manpower and delay in project execution.

The report provides a competitive landscape that includes a profile of the major players in the market including their expansion plans and financials.
