

FOR IMMEDIATE RELEASE

Rising demand for communication services will boost the Telecom Market in China, finds Netscribes

Netscribes (India) Pvt. Ltd., launches a report on the Telecom Market in China 2011 as part of Netscribes' Telecom Industry series.

Mumbai, India – May 20, 2011 – Netscribes (India) Pvt. Ltd., a knowledge consulting solutions company, announces the launch of its Telecom Market in China 2011 report. Rising demand for communication service supported by economic development along with major development in technology (such as 3G and 4G) will boost the demand for telecommunication services in China.

The report begins with an introduction to the telecom industry in China indicating its structure and timeline of its development. It then discusses the various telecom services available in China such as fixed line telephone, mobile phone, internet, broadband and 3G services. It includes information about the number of subscribers and its penetration rates in China. This is followed by a brief overview of initiative being taken by the government of China which includes development of telecom infrastructure, 4G networks and initiative to support business in Africa.

The major characteristics of the market have been analyzed and include – Economic Factor, Technology Factor and Individual and Industry Demand.

The competition section provides subscription data for major companies in China. It also includes a brief profile of the major players which includes a snapshot of their corporation, financial performance and expansion plans, providing an insight into the existing competitive scenario.
