

FOR IMMEDIATE RELEASE

Growth in power sector will drive the turbine generator market in India, finds Netscribes

Netscribes (India) Pvt. Ltd., launches a report on the Turbine Generator Market in India 2011 as a part of its Power Equipment Industry report series.

Mumbai, India – January 18, 2011 – Netscribes (India) Pvt. Ltd., a knowledge consulting solutions company, announces the launch of its report *Turbine Generator Market in India 2011*. The initiatives undertaken by the government along with the growth in infrastructure projects is fueling demand for switchgears in India.

The report provides a brief overview of the turbine generator market in India, the market size and growth in value and volume terms has been provided. It also includes the market segmentation.

An analysis of the drivers reveals that rise in overall power capacity, government initiatives, availability of funds and civilian nuclear deal between India & US are creating demand for turbine generators. The key challenges identified are the absence of good quality infrastructure, sales tax and VAT, low return to utilities, project execution delays.

The report provides a competitive landscape that includes profiles of the major players in the market including their expansion plans and financials.
